Child Declaration (for children who are old enough to understand the content)

I have read and understood the Home-School Agreement and accept the part that I will play in working together with my parents/carers and King's Oak Primary School, to support my future success.

Child's Name:

Signed:
(Child)

King's Oak is a school at the heart of its community where the sense of wonder in each child is awakened, where each is valued as an individual and where gifts and talents are discovered, developed and achievements are celebrated.

We aim to develop a culture of inclusion, in which all those connected with our school feel proud of their identity and able to participate fully in school life, through encouraging positive attitudes and interactions, mutual respect and a shared sense of belonging. We believe that diversity is a strength, which should be respected and celebrated by all those who learn in, teach in and visit our school.

This document aims to set out how parents/carers, staff and children can show a shared commitment to working together.

For parents/carers:

to have greater understanding of what happens at our school and how you can support the education of your child.

For staff:

to know that there is support from parents/carers.

For children:

to benefit from a clear knowledge that our school and parents/carers are working together.

Child
